

ACRON 10-Year Vision

Vision

Transform ACRON from a Django project into a Backend Engineering ecosystem.

Pillars

1. Open Source Core
2. Education (YouTube, articles, documentation)
3. Community (GitHub, Discord)
4. Commercial products (Templates, SaaS, Enterprise)
5. AI tools for backend engineers

Roadmap

Years 1-2: Build core, documentation, content.

Years 3-5: Community, consulting, paid products.

Years 6-8: SaaS, cloud, AI services.

Years 9-10: International company, enterprise customers, conferences.
